

Teresa Mirror Installation Guide

The ADCP906 Teresa Mirror is W650 x H900 x D13mm featuring an 80mm mirror border.

Installation Steps:

1. The ADCP906 Teresa Mirror is not supplied with wall fixings. You will need to obtain suitable fixings for your wall type. The ADCP906 Teresa Mirror has hangers that allow it to be mounted horizontally or vertically.
2. Drill holes for the wall plugs and insert the screws and leave the heads of the screws protruding from the wall.
3. Locate the hanger opening over the protruding screw head and gently lower the mirror until you can feel the screw take the weight of the mirror.

Care and Maintenance:

For best results clean mirror with methylated spirits and water at a rate of 30% methylated spirits and 70% water. Do not use Windex or similar cleaning products. Avoid getting water on the sides or back of the mirror as damage to the silver backing can occur. In coastal areas it is recommended to wipe around the edge of the mirror regularly to avoid salt build up that can cause silver creep.
