

# Ablaze Mirrors

Signature Range Glue-to-Wall

Installation Guide

# Glue-to-Wall Fixing

Ablaze Signature Range mirrors are made from copper free Guardian mirror and are processed in Australia.

Ablaze Signature Range mirrors are treated with a mirror edge seal for added protection.

## Installation

Glue-to-Wall Mirrors must be installed onto a level surface otherwise the double-sided tape will not hold while the mirror adhesive sets. Make sure the mirror adhesive selected is compatible with mirrors as some will damage the mirror backing. Mirror adhesive must be used in conjunction with the double-sided tape.

The use of timber supports cut to the height required off vanity is also recommended for ease of installation, this will keep mirror at the desired height. As double-sided tape makes contact with wall it will adhere solidly making it almost impossible for a second chance. Selection of correct adhesive and support whilst drying is the responsibility of the installer and is not covered under the warranty.

The mirror adhesive should be run in vertical beads on the back of the mirror so that condensation behind the mirror can drain away.

## IMPORTANT MIRROR INSTRUCTIONS

Do not use Windex to clean mirror. Methylated spirits and water at a 70% water to 30% methylated spirits ratio is ideal or use water only to preserve the backing of the mirror. If you live within 5km of the ocean, we recommend that you wipe the edges of your Ablaze mirror at least once a month to eliminate salt build up, which can cause the rusting of mirrors (silver creep).

Do not place on tiled floor after opening as mirror will chip. Place on soft surface.

Do not remove rubber corners until mirror is installed.

# Warranty Information

Thermogroup covers all its products with a satisfaction guarantee. In addition, Thermogroup will supply a replacement product where a fault is shown to be caused by manufacture, materials or workmanship providing the goods have been installed correctly and according to installation instructions. This guarantee does not include removal, freight or installation costs. Thermogroup's products come with guarantees that cannot be excluded under Australian Consumer Law and you are entitled to a replacement or refund for a major failure & compensation for any other reasonable foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

All of the Signature Range Ablaze Mirrors have a 3 year warranty. To use the warranty, repair or service the customer must provide purchase invoice/receipt, and any other relevant details.

If the product develops a fault within the warranty period due to normal wear and tear, Ablaze mirrors at its discretion will recognise whether it's a faulty product or not. If it is impossible or not economical for the manufacturer to repair the product, the manufacturer will replace the faulty product with a new unit of the same model or if there is no stock available of the same model as the product, the manufacturer will replace the product with a new unit of a similar size. No responsibility can be taken for altered dimensions and lining up of existing holes.

The repair service offered within the warranty period only covers the faults and problem as developed from the manufacturer's errors. Any damage caused by improper use or carelessness or incorrect wiring is not covered

Thermogroup is not responsible for any monetary loss or injuries caused by improper use of this product.
